## END NOTES I

(Paragraph 7 of the Appendix to the First Second and Third Schedules)

I. For the exclusive purpose of allowing international trade in fibre from vicuñas (*Vicugna vicugna*) and their derivative products, only if the fibre comes from the shearing of live vicuñas. Trade in products derived from the fibre may only take place in accordance with the following provisions:

(a) Any person or entity processing vicuña fibre to manufacture cloth and garments must request authorization from the relevant authorities of the country of origin (Countries of origin: The countries where the species occurs, that is, Argentina, Bolivia, Chile, Ecuador and Peru) to use the “vicuña country of origin” wording, mark or logo adopted by the range States of the species that are signatories to the Convention for the Conservation and Management of the vicuña;

(b) Marketed cloth or garments must be marked or identified in accordance with the following provisions:

(i) For international trade in cloth made from live-sheared vicuña fibre, whether the cloth was produced within or outside of the range States of the species, the wording, mark or logo must be used so that the country of origin can be identified. The VICUÑA [COUNTRY OF ORIGIN] wording, mark or logo has the format as detailed below:

VICUNA [PAIS DE ORIGEN]

This wording, mark or logo must appear on the reverse side of the cloth. In addition, the selvages of the cloth must bear the words VICUÑA [COUNTRY OF ORIGIN];

(ii) For international trade in garments made from live-sheared vicuña fibre, whether the garments were produced within or outside of the range States of the species, the wording, mark or logo indicated in paragraph (b)(i) must be used. This wording, mark or logo must appear on a label on the garment itself. If the garments are produced outside of the country of origin, the name of the country where the garment was produced should also be indicated, in addition to the wording, mark or logo referred to in paragraph (b)(i);

(c) For international trade in handicraft products made from live-sheared vicuña fibre produced within the range States of the species, the

END NOTES I, *contd.*

VICUÑA [COUNTRY OF ORIGIN]—ARTESANÍA wording, mark or logo must be used as detailed below:

## VICUÑA [PAIS DE ORIGEN] ARTESANIA

- (d) If live-sheared vicuña fibre from various countries of origin is used for the production of cloth and garments, the wording, mark or logo of each of the countries of origin of the fibre must be indicated, as detailed in paragraphs (b)(i) and (ii);
  - (e) All other specimens shall be deemed to be specimens of species listed in the First Schedule and trade in them shall be regulated accordingly.
2. Populations of Botswana, Namibia, South Africa and Zimbabwe (listed in the Second Schedule):

For the exclusive purpose of allowing:

- (a) trade in hunting trophies for non-commercial purposes;
- (b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20 (Rev. CoP17), for Botswana and Zimbabwe and for in situ conservation programmes for Namibia and South Africa;
- (c) trade in hides;
- (d) trade in hair;
- (e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe;
- (f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe;
- (g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following:
  - (i) only registered government-owned stocks, originating in the State (excluding ivory and ivory of unknown origin);

END NOTES I, *contd.*

- (ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee; to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP17) concerning domestic manufacturing and trade;
  - (iii) not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;
  - (iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa);
  - (v) in addition to the quantities agreed at Cop12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in paragraph g) iv) above, in a single sale per destination under strict supervision of the Secretariat;
  - (vi) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and
  - (vii) the additional quantities specified in paragraph g) v) above shall be traded only after the Standing Committee has agreed that the above conditions have been met; and
- (h) no further proposals to allow trade in elephant ivory from populations already in the Second Schedule shall be submitted to the Conference of the Parties for the period from CoP14 and ending nine years from the date of the single sale of ivory that is to take place in accordance with provisions in paragraphs g) i), g) ii), g) iii), g) vi) and g) vii). In addition such further proposals shall be dealt with in accordance with Decisions 16.55 and 14.78 (Rev. CoP 16).

END NOTES I, *contd.*

On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations. All other specimens shall be deemed to be specimens of species included in the First Schedule and the trade in them shall be regulated accordingly.

9. Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of the Convention:
  - *Hatiora x graeseri*;
  - *Schlumbergera x buckleyi*;
  - *Schlumbergera russelliana x Schlumbergera truncata*;
  - *Schlumbergera orssichiana x Schlumbergera truncata*;
  - *Schlumbergera opuntioides x Schlumbergera truncata*;
  - *Schlumbergera truncata* (cultivars);
  - *Cactaceae* spp. Colour mutants, grafted on the following grafting stocks: *Harrisia* 'Jusbertii', *Hylocereus trigonus* or *Hylocereus undatus*;
  - *Opuntia microdasys* (cultivars).
10. Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under a) and b), are met: *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda*:
  - (a) specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and
  - (b) (i) when shipped in non-flowering state, the specimens must be traded shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or

END NOTES I, *contd.*

- (ii) when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, *e.g.* labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

11. Artificially propagated specimens of cultivators of *Cyclamen persicum* are not subject to the provisions of the Convention. However, the exemption does not apply to such specimens traded as dormant tubers.
12. Artificially propagated hybrids and cultivars of *Taxus cuspidata*, live, in pots or other small containers, each consignment being accompanied by a label or document stating the name of the taxon or taxa and the text 'artificially propagated', are not subjected to the provisions of the Convention.

- #2. All parts and derivatives except:
- (a) seeds and pollen; and
  - (b) finished products packaged and ready for retail trade.
- #3. Whole and sliced roots and parts of roots, excluding manufactured parts or derivatives, such as powder, pills, extracts, tonics, teas and confectionery.
- #4. All parts and derivatives, except:
- (a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
  - (b) seeding or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers;
  - (c) cut flowers of artificially propagated plants;
  - (d) fruits and parts and derivatives thereof of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae; and
  - (e) stem, flowers and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae); and
  - (f) finished products of *Euphorbia antisiphilitica* packaged and ready for retail trade.
- #6. Logs, sawn wood, veneer sheets and plywood.
- #7. Logs, wood-chips, powder and extracts.
- #8. Underground parts (*i.e.* roots, rhizomes): whole, parts and powdered.
- #9. All parts and derivatives except those bearing a label "Produced from Hoodia spp. material obtained through controlled harvesting and production under the terms of an agreement with the relevant CITES Management Authority of [Botswana under agreement No. BW/xxxxxx [Namibia under the agreement No. NA/xxxxxx] [South Africa under agreement No. ZA xxxxxx]".
- #10. Logs, sawn wood, veneer sheets including unfinished wood articles used for the fabrication of bows for stringed musical instruments.

END NOTES II, *contd.*

#11. Logs, sawn wood, veneer sheets, plywood, powder and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.

#12. Logs, sawn wood, veneer sheets, plywood and extracts. Finished products containing such extracts as ingredients, including fragrances, are not considered to be covered by this annotation.

#14. All parts and derivatives except:

- (a) seeds and pollen;
- (b) seedling or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers;
- (c) fruits;
- (d) leaves;
- (e) exhausted agarwood powder, including compressed powder in all shapes; and
- (f) finished products packaged and ready for retail trade, this exemption does not apply to beads, prayer beads and carvings.

#15. All parts and derivatives are included, except:

- (a) Leaves, flowers, pollen, fruits and seeds;
- (b) Non-commercial exports of a maximum total weight of 10 kg. per shipment;
- (c) Parts and derivatives of *Dalbergia cochinchinensis*, which are covered by Annotation No. 4;
- (d) Parts and derivatives of *Dalbergia spp.* originating and exported from Mexico, which are covered by Annotation No. 6.

#16. Seeds, fruits, oil and live plants.”.

4. The Act is amended by deleting the Third Schedule and substituting therefor the following—

“ THIRD SCHEDULE (Sections 2, 6, 10, 11, 15, 16, 18, 19, 28–30, 34, 36 and 53)

## END NOTES

(Paragraph 8 of the Appendix to the First, Second and Third Schedules)

- #1 All parts and derivatives, except:
- (a) seeds, spores and pollen (including pollinia);
  - (b) seedling or tissue cultures obtained in vitro, in solid or liquid media, transported in sterile containers;
  - (c) cut flowers of artificially propagated plants; and
  - (d) fruits and parts and derivatives thereof of artificially propagated plants of the genus *Vanilla*.
- #5 Logs, sawn wood and veneer sheets.
- #13 The kernel (also known as 'endosperm', 'pulp' or 'copra') and any derivative thereof.

THIRD SCHEDULE, *contd.*APPENDIX TO THE FIRST,  
SECOND AND THIRD SCHEDULES(First Schedule  
Second Schedule  
and Third Schedule)*Interpretation*

1. Species included in the First, Second and Third Schedules (herein referred to as "these Schedules") are referred to—

- (a) by the name of the species; or
- (b) as being all of the species included in a higher taxon or designated part thereof.

2. The abbreviation "spp." is used to denote all species of a higher taxon.

3. Other references to taxa higher than species are for the purposes of information or classification only. The common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family concerned that are included in these Schedules. In most cases this is not all of the species within the family.

4. The following abbreviations are used for plant taxa below the level of species—

- (a) "ssp." is used to denote subspecies; and
- (b) "var." or "vars." is used to denote variety or varieties, respectively.

5. As none of the species or higher taxa of FLORA included in the First Schedule is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers of these hybrids are not subject to the provisions of the Convention.

6. The names of the countries in parentheses placed against the names of species in the Third Schedule are those of the Parties to the Convention submitting these species for inclusion in these Schedules.

7. When a species is included in one of these Schedules, all parts and derivatives of the species are also included in the same Schedule unless the species is annotated to indicate that only specific parts and derivatives are included.

8. The symbol "#" followed by a number placed against the name of a species or higher taxon included in the Second Schedule or Third Schedule refers to an endnote that indicates the parts or derivatives of plants that are designated as "specimens" subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (iii).

THIRD SCHEDULE, *contd.*APPENDIX TO THE FIRST,  
SECOND AND THIRD SCHEDULES, *contd.*

## 9. For the purposes of these Schedules—

“extract” means any substance obtained directly from plant material by physical or chemical means regardless of the manufacturing process, including—

- (a) a solid, such as crystals, resin, fine or coarse particles;
- (b) a semi-solid, such as gums and waxes; or
- (c) a liquid, such as solutions, tinctures, oil and essential oils;

“finished products packaged and ready for retail trade” means products that are—

- (a) shipped singly or in bulk which require no further processing, packaging, labelling for final use or the retail trade; and
- (b) in a state fit for being sold to or used by the general public;

“powder” means a dry, solid substance in the form of fine or coarse particles;

“woodchips” means any wood that has been reduced to small pieces.”.
